

ALN - gangbaner, trapper og rekkverk.

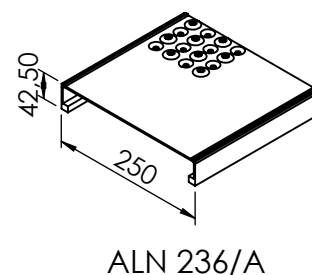

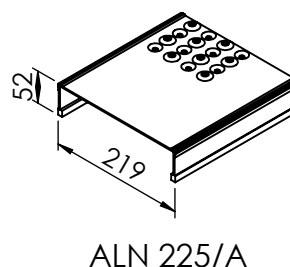

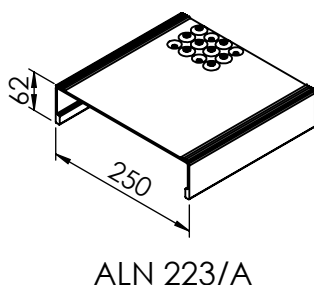

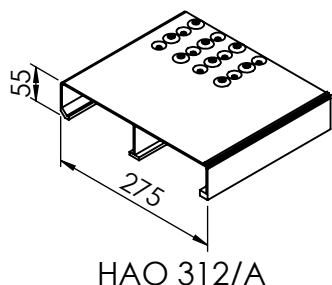

Alle løsninger leveres ferdig sammensatt eller i løse deler etter avtale.

Vanger.

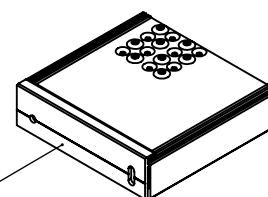

Trinn.

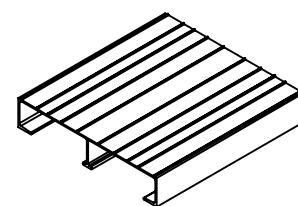

Det er mest vanlig at trinnene sveises direkte til vangerne. Men trinn kan også leveres med hullet endestykker.

Endestykkeprofil med stansede hull.

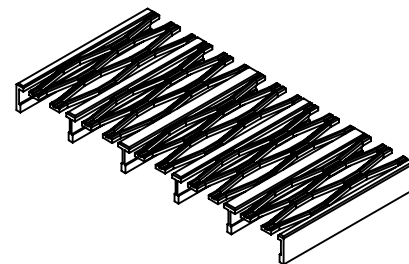

ALN 223/A

Trinn med rillemønster kan også benyttes (f.eks. ALN 240/C).

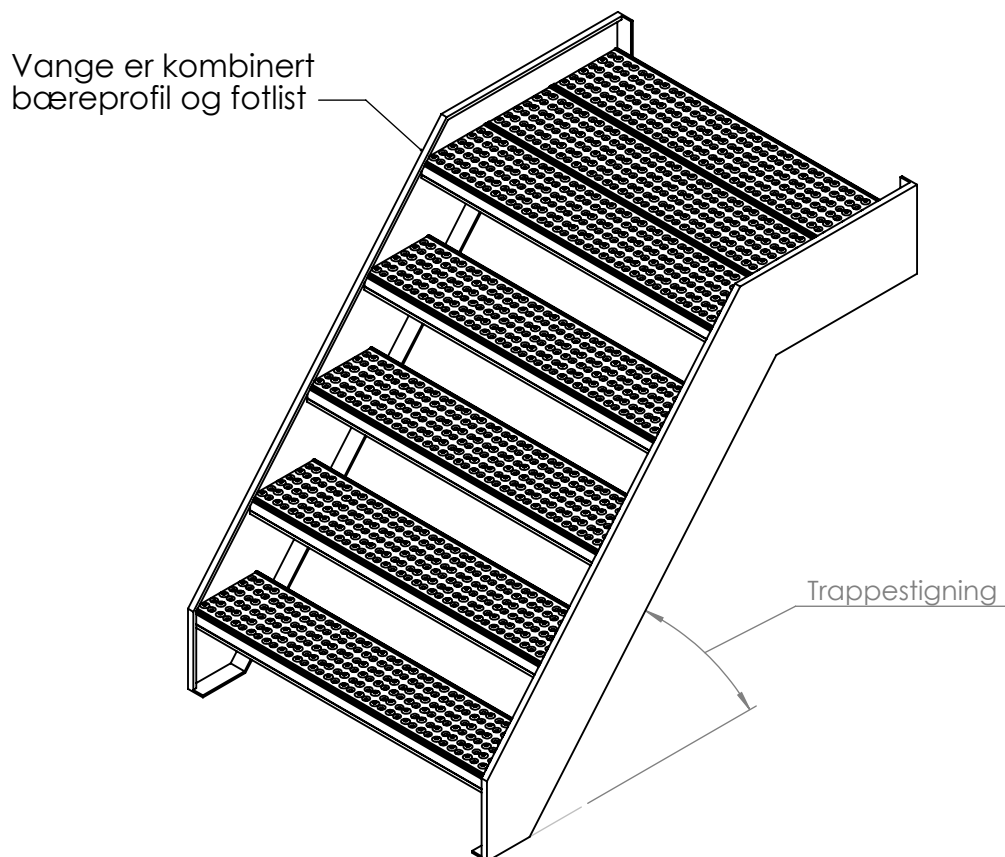

ALN 240/C

Amplirist er også anvendelig som trinn.

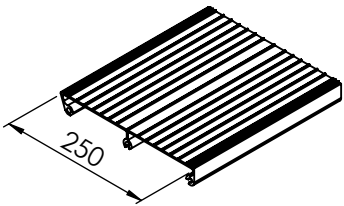

Amplirist 213,5-400

Det finnes flere typer trinnprofiler, også for skruerinnfesting. Ta kontakt med ABAS dersom du har spørsmål.
